1. ORGANIZATIONAL POLICIES AND PRACTICES
Better, shared digital stewardship activity metrics
Identify shared infrastructure and models for broadening support, especially open source
Fund research into digital stewardship roles/responsibilities
Explore ways to expand role of info professionals in librarianship
Take longitudinal surveys of digital stewardship to explore efficacy
2. DIGITAL CONTENT AREAS
Scientific data sets
Dynamic web content
Software
Moving image and recorded sound
3. TECHNICAL INFRASTRUCTURE
Coordinating ecosystem of distributed services
File format action plan development
Ensuring content integrity
Interoperability across the technology stack
Integration of digital forensics tools and preservation workflows
4. RESEARCH PRIORITIES
Applied research: cost and audit modeling
Understanding information equivalence/significance
Policy research on trust frameworks
Preservation at scale
Evidence base for digital preservation
Let’s cat, I mean chat, about the US National Agenda for Digital Stewardship
