Haluaisin mutta en ehdi! – Ruotsissa selvitettiin tutkijoiden näkökulmaa avoimeen tieteeseen

3.10.2019

Ruotsissa vastavalmistunut kansallinen selvitys ”Jag vill, men hinner inte! Forskares syn på kommunikation och öppen vetenskap” nostaa esiin avoimen tieteen näkökulmasta mielenkiintoisia tuloksia.

Yötyönä vai eläkkeellä? - Oppimateriaalikyselyn tulokset

2.10.2019

Oppimateriaalien avointa saatavuutta koskevaan ennakkokyselyyn saatiin 108 vastausta. Kiitos kaikille vastaajille! Kysely toimii alkusysäyksenä suomalaisen tutkimusyhteisön avoimen oppimisen ja avoimien oppimateriaalien linjaustyölle.

Sinustako EOSC:in yhteiskehittäjä? Hae rahoitusta EOSC:in toteutusta edistävään projektiin!

1.10.2019

Haluatko osallistua eurooppalaisen avoimen tieteen pilven eli EOSC:in yhteiskehitykseen? Onko sinulla projekti-idea, jolla edistää EOSC:in toteutusta? EOSC-sihteeristön yhteiskehitys eli co-creation -rahastosta organisaatio, yhteisö tai yksittäinen toimija voi hakea rahoitusta idealleen, esimerkiksi työpajalle tai selvitykselle.

Fairdata.fi – Tools for Scientists provided by CSC

Take care of your research data

Taking care of your research data is an essential part of good scientific practice. The Fairdata services enable verifiable and reproducible science and secure preservation of digital research outputs.

IDA - STORE

IDA provides safe storage for research data. [IDA Service](#) | [More information on IDA](#)

Etsin - FIND

Etsin is a research data finder that contains descriptive information – metadata – on research datasets. Anyone may browse and use the metadata. [Etsin Service](#) | [More information on Etsin](#)

Qvain - DESCRIBE

Qvain metadata tool helps to add metadata that fulfills the minimum requirements for digital preservation. Quality metadata keeps the data findable and linkable and ensures that Fairdata services are interoperable. [Qvain Service](#) | [More information on Qvain](#)

Fairdata PAS - PRESERVE

Fairdata PAS service takes care of the digital preservation of research outputs. Digital preservation is the reliable storage of digital information for tens or even hundreds of years. [More information](#)

Qvain – Research Data Metadata Tool

Swedish East India Company in Newspapers 1731-1807

🔒 Open

The data consist of four datasets compiled using content coding. The datasets focus on the Swedish East India Company (Svenska Ostindiska Companiet, SOIC) operating from 1731 to 1813. The first dataset comprises newspaper content that mentions the Swedish East India Company (marked with letter A in the data file) and the second contains traffic information on ships in the port of Gothenburg (marked with letter B in the data file). The third dataset has more detailed information on the church...

European Values Study 2017: Finnish Data

🔒 Restricted use

The European Values Study is a population-level study charting Finnish moral views, religious and social attitudes, and values. The 2017 EVS survey focused on equality between groups of people, tolerance, religious behaviour, democracy, and citizenship. First, the respondents were asked what they considered to be the most important things in their lives, and how they perceived their happiness and health. The respondents' participation in association work was also queried as well as trust in...

Gallup Ecclesiastica 2011

🔒 Restricted use

The survey investigated religiosity and church membership of Finnish people as well as their participation in parish activities. Questions about faith, matters related to spirituality, religious communities, and family were asked. The respondents were first asked whether they were members of a church or other religious community. Those who were members of the Evangel...

Welcome

Data management planning tool DMPTuuli helps you to create, review, and share data management plans that meet institutional and funder requirements.

Join the growing number of researchers that have adopted DMPTuuli:

8 883 Users

12 204 Plans

50 Organisations

You can download funder templates without logging in, but from DMPTuuli you will find tailored guidance from many research organisations, including universities and service providers like the Finnish Social Science Data Archive. Why not sign up for an account and try it out?

KANSALLISKIRJASTO

The National Library supports on ontologies, Persistent Identifiers, Authority Control, Dublin Core, etc.

The screenshot shows the Finto service website. At the top, there are navigation links: Vocabularies, About, Feedback, and Help. A search bar is present with a dropdown menu set to 'English' and a search button. The main content area is divided into three columns. The left column features the 'finto' logo and a welcome message. The middle column lists available vocabularies and ontologies, categorized into 'GENERAL' and 'SOCIETY'. The right column displays a tweet from Susanna Nykyri.

Available vocabularies and ontologies

GENERAL

- Allärs - General thesaurus in Swedish
- FGF - Finnish genre and form vocabulary
- Finnish Corporate Names
- HCLCS - Helsinki City Library Classification System
- KOKO Ontology
- Metatietosanasto
- PLC - Finnish Public Libraries Classification System
- Pondus categories
- UCUM - The Unified Code for Units of Measure
- UDC Summary
- YSA - General Finnish thesaurus
- YSA:n ja YSON käsite-ehdotukset
- YSO - General Finnish ontology

SOCIETY

- IPTC NewsCodes
- JUHO - Julkishallinnon ontologia
