

Open Repositories 2014

9.-13.6. Helsingissä

Asiantuntijaseminaari, 29.4.2014

Jyrki Ilva (jyrki.ilva@helsinki.fi)

Open Repositories?

- Merkittävin avoimiin julkaisuarkistoihin keskittyvä vuosittainen tapahtuma maailmassa
- Konferenssin yhteydessä myös keskeisten julkaisuarkisto-ohjelmistojen käyttäjäryhmien vuosittaiset kokoontumiset
 - DSpace, EPrints, Fedora, Invenio: avoimen lähdekoodin ohjelmistoja

2006: Sydney, Australia

2007: San Antonio, USA

2008: Southampton, Englanti

2009: Atlanta, USA

2010: Madrid, Espanja

2011: Austin, USA

2012: Edinburgh, Skotlanti

2013: Charlottetown, Kanada

2014: Helsinki, Suomi

2015: Indianapolis, USA

Oman alansa johtava konferenssi

- Edinburghissa järjestetyssä vuoden 2012 konferenssissa yhteensä 460 osallistujaa 40 maasta eri puolilta maailmaa
- USA:ssa ja Kanadassa järjestetyt konferenssit (esim. OR2013) olleet jonkin verran pienempiä

```

public class LoginFormController {
    @ModelAttribute("loginForm")
    public LoginForm createForm() {
        return new LoginForm();
    }

    @ModelAttribute("loginService")
    public LoginService createService(HttpServletRequest request) {
        // ...
    }

    @RequestMapping(params = "submit")
    public String processForm(
        @ModelAttribute("loginForm") LoginForm loginForm,
        @Valid LoginService loginService,
        @ModelAttribute("loginForm") LoginForm loginForm,
        @ModelAttribute("loginForm") BindingResult bindingResult) {
        // ...
        bindingResult.addError(new ObjectError("loginForm",
            new String[]{"Invalid password"}));
        return "pages/login";
    }
}

```

OR2014 - käytännön järjestelyt

- Järjestäjinä Kansalliskirjasto ja Helsingin yliopiston kirjasto
 - Konferenssiin odotetaan noin 400 osallistujaa, budjetti 170.000 euroa
- Kestää viisi päivää - ohjelmatarunko:
 - Ma 9.6. (HY, keskustakampus): esikonferenssi, workshopit ja tutoriaalit
 - Ti 10.6. - Pe 13.6. (Paasitorni): pääkonferenssi ja käyttäjäryhmät
 - Lisäksi rinnalla Developer Challenge -kilpailu (Ma-Ke)
- Verkkosivut: <http://or2014.helsinki.fi>

Konferenssin ohjelma

- Päävastuussa kolmen Program Chairin "triumviraatti"
 - Tom Cramer (Stanfordin yliopisto)
 - Michael J. Giarlo (Pennsylvanian valtionyliopisto)
 - Simeon Warner (Cornellin yliopisto)
- Lisäksi laajempi ohjelmakomitea, jossa myös Kansalliskirjaston ja Helsingin yliopiston kirjaston edustus

Conference Papers and Panels

Interest Group Presentations

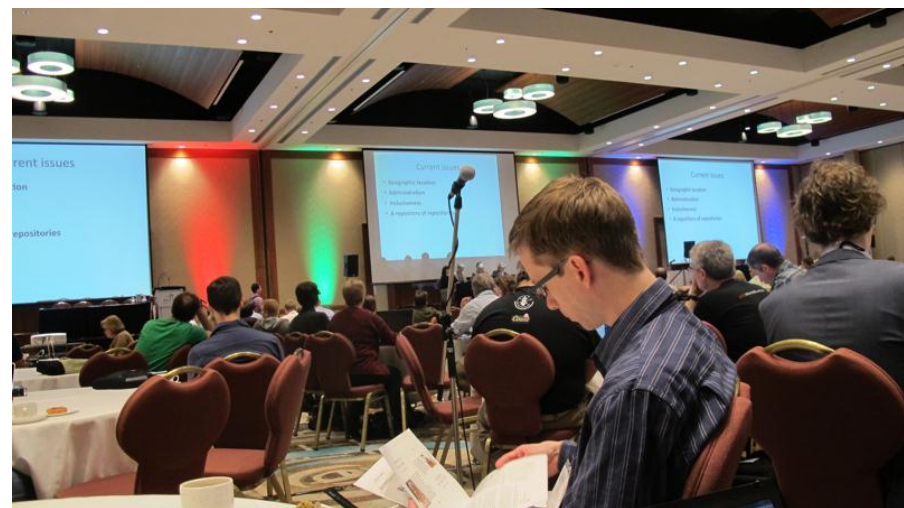

24x7 Presentation Proposals

"Repository Rants" 24x7 Block

Posters, Demos and Developer "How-To's"

Developer Challenge

Workshops and Tutorials

Ohjelma (2)

- Pääosin kehittäjä- ja käyttäjäyhteisön itsensä tuottamaa
- Monipuolista ja suurelta osin käytännönläheistä
- Vertaisarvioitua, vaikkei varsinaisesti tieteellistä
- Tänä vuonna luvassa yhteensä yli 150 esitystä, paneelia tai työpajaa ja yli 70 posteria

Date: Wednesday, 11/Jun/2014

8:30am - 4:00pm	Registration Location: Paasitorni
9:00am - 10:45am	RR: Repository rants Location: Paasitorni - Congress Hall
	Comprehensive digital preservation repositories: gaps, and what do we mean by "repository" anyway? Kara Van Malssen AudioVisual Preservation Solutions
	A repository is NOT a digital archive Stephanie Taylor University of London, United Kingdom
	Repository Rant -- Digital Scavenging Linda D. Newman University of Cincinnati, United States of America
	The Invisible Institutional Repository: Missing a Trick (and Missing Fulltext)? William J Nixon University of Glasgow, United Kingdom
	How can we agree on some product agnostic repository function fundamentals? Declan Fleming UC San Diego, United States of America
	A DNS Bases Approach To Electronic Persistence, or "If Your Pants Fit, Why Use Suspenders?" Anders Söderbäck Stockholm university library, Sweden
	Repository sustainability Christian Zimmermann Federal Reserve Bank of St. Louis, United States of America
	An Alternative American Approach to Repositories Paul Royster University of Nebraska-Lincoln, United States of America
	A tale of two communities Becky Yoose Grinnell College, United States of America
	Raise All Ships: Cooperative Repository Strategies in a Boot-Strap Culture Ryan J. Steans Texas Digital Library, United States of America

Konferenssin ohjelma (3)

- Konferenssin pääteema
Towards Repository
Ecosystems
- Mukana monenlaisia
muitakin ajankohtaisia
aiheita

9:30am -	Keynote and discussion: Erin McKiernan Location: Paasitorni - Congress Hall		
10:45am	Erin McKiernan is a Researcher in Medical Sciences at the National Institute of Public Health in Mexico. She received her Ph.D. in Physiological Sciences in 2010 from the University of Arizona. Her research involves the integration of experimental and computational approaches to solve diverse problems in epidemiology, physiology, and neuroscience. She is an advocate for open access, open data, and open source. She has written about open access for international media outlets such as The Conversation, and blogs about her experiences with open science at http://emckiernan.wordpress.com . You can follow her on Twitter at http://twitter.com/emckiernan13 .		
10:45am -	Coffee break Location: Paasitorni		
11:15am -	P1A: Parallel session 1A Location: Paasitorni - Congress Hall 24x7 presentations	P1B: Parallel session 1B Location: Paasitorni - Siltasaari Hall Papers	P1C: Parallel session 1C Location: Paasitorni - Karl Lindahl Panel

Konferenssin ohjelma (4)

- Mukana myös kymmenkunta suomalaista esitystä tai posteria

Open research data policies, what makes the difference?

Remedios Melero, Nerea Rodriguez-Armentia

Spanish National Research Council (CSIC), Spain

We examined open access policies to research data required or recommended by funders that data sharing. MELIBEA and SHERPA / JULIET directories to create the list of funders, and found a total of 36 open access policies to research data. Policies were analyzed in terms of: funder's country, associated costs with data sharing and the requirement for inclusion of the data management plan in the grant, preservation and maintenance of datasets, when and where to deposit datasets. Our preliminary results indicated that: UK has the highest number of these policies; costs associated with data sharing can usually be supported by funders. Funders require data management plans to be included within the grant. Raw or derived datasets must be deposited in a suitable open access discipline or institutional repository within 12 months of final data collection. Regarding storage and preservation of data, PI must ensure raw data or results are stored for a minimum period after completion of the project (from 3 to 10 years). Funders required deposit raw or derived datasets in a suitable open access institutional repository or discipline. Finally, researchers that use shared data are required to acknowledge investigators who generated the data.

Open Repository Theseus – Success Story of 24 Finnish Universities of Applied Sciences

Minna Marjamaa, Tiina Tolonen, Anna-Liisa Holmström

AMKIT Consortium, Finland

Open Repository Theseus – Success Story of 24 Finnish Universities of Applied Sciences

The Theseus poster represents the cooperation model used in building a joint open repository for 24 Finnish Universities of Applied Sciences (UAS). The aim is to showcase our cooperation model created for Theseus Open Repository, its aim, policies, user support and further developments. The model is resource saving for universities as students independently upload their work and user support is centralized with common instructions.

Omeka-DSpace REST API Harvester

Ying Jin

Rice University, United States of America

Omeka-Dspace REST API Harvester is an Omeka plugin, which makes it possible to upload all your DC elements and customized schemas to Omeka during the installation of the plugin and be able to link all the datastreams (including thumbnails) from DSpace.

The development of the plugin is based on Omeka 2.0 and DSpace 3.0 wjiti REST API. It allows you to specify the DC elements and customized schemas you would like to import to Omeka in a configuration file before the installation of the plugin. By giving the URL of the DSpace repository and choosing the collection to harvest, the plugin can load the items with elements imported to the Omeka. However, the datastreams are not copied over but linked to Omeka in item list and item summary pages.

OCR Correction Tool for Linguistic Corpora

Jussi-Pekka Hakkarainen, Esa-Pekka Keskitalo

National Library of Finland, Finland

We introduce a new tool for correcting OCR errors of materials in a repository of cultural materials. The poster is aimed to all who are interested in digital humanities and who might find our tool useful. The poster will focus on the OCR correction tool and on the background processes.

We have started a project on materials published in Finno-Ugric languages in the Soviet Union in the 1920s and 1930s. The materials are digitised in Russia. As they arrive, we publish them in DSpace (fennougrica.kansalliskirjasto.fi).

Ohjelma (5)

- Maanantain esikonferenssissa yhteensä 19 työpajaa ja tutoriaalia

Date: Monday, 09/Jun/2014

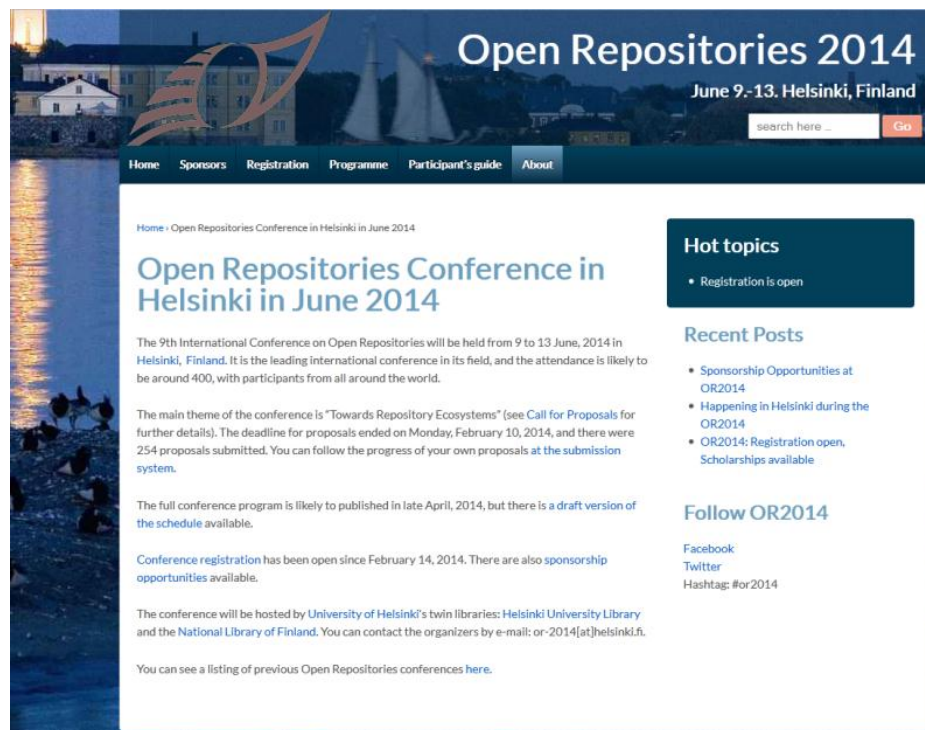

8:15am - 6:00pm	Registration Location: Metsätalo							
9:00am - 12:30pm	WK1A: GIS in Digital Repositories Location: Fabiania auditorium, Yliopistonkatu 1 Coffee break 10:30-11:00.	WK1B: DataONE Member Node Implementation Workshop Location: Metsätalo, room 8 (B313) Coffee break 10:30-11:00.	WK1C: Altmetrics in practice: How are institutional repositories using altmetrics today? Location: Metsätalo, room 2 (B212) Coffee break 10:30-11:00	WK1D: DSpace Committers Meeting Location: Metsätalo, room 4 (B214) Coffee break 10:30-11:00.	WK1E: Fedora Committers Meeting Location: Metsätalo, room 10 (B311) Coffee break 10:30-11:00.	WK1F: Getting Started with Islandora Location: Aleksandria, Computer Lab (K130) Coffee break 10:30-11:00.	WK1G: Introduction to Hydra for Developers Location: Metsätalo, room 12 (B308) Coffee break 10:30-11:00.	
9:00am - 6:00pm	Developer Challenge Location: Kaisa House							
12:30pm - 1:30pm	Lunch (at your own cost)							
1:30pm - 5:00pm	WK2A: GIS in Digital Repositories (continued) Location: Fabiania auditorium, Yliopistonkatu 1 Coffee break 15:00-15:30.	WK2B: DataONE Member Node Implementation Workshop (continued) Location: Metsätalo, room 8 (B313) Coffee break 15:00-15:30.	WK2C: Between publication culture and funder mandates - What is the future for disciplinary repositories? Location: Metsätalo, lecture hall 1 (B116) Coffee break 15:00-15:30	WK2D: Advanced Islandora Workshop Location: Aleksandria, Computer Lab (K130) Coffee break 15:00-15:30	WK2E: DevOps for Digital Libraries Location: Metsätalo, room 15 (C306) Coffee break 15:00-15:30	WK2F: Implementing RDF metadata in Hydra Location: Metsätalo, room 12 (B308) Coffee break 15:00-15:30	WK2G: Practical Data Curation and Management for Institutional Repositories Location: Metsätalo, room 4 (B214) Coffee break 15:00-15:30	
5:00pm - 5:30pm	Break							
5:30pm - 7:00pm	WK3A: Dealing with Funder Mandates: Practical Support for Repository Practitioners Location: Metsätalo, room 4 (B214)	WK3B: Hydra for Managers Location: Metsätalo, room 2 (B212)	WK3C: Open Access Button Workshop Location: Fabiania meeting room, Yliopistonkatu 1	WK3D: OpenAIRE compatibility for DSpace repositories Location: Metsätalo, room 14 (C305)	WK3E: How to take advantage of ORCID in institutional repositories Location: Fabiania auditorium, Yliopistonkatu 1	WK3F: Research Data Management in the Cloud Location: Metsätalo, room 15 (C306)	WK3G: Visual Arts Data Skills for Researchers (VADSAR) Location: Metsätalo, room 13 (C304)	

Ilmoittautuminen käynnissä

- Ilmoittautuminen alkanut vilkastua parin viime viikon aikana
 - Alennettu ilmoittautumishinta päättyy sunnuntaina 4.5.
 - Viime perjantaina 153 ilmoittautunutta 27 maasta – USA 47, Iso-Britannia 19, Suomi 14, Kanada 12, Tsekki 9, jne.
- Kenelle voi suositella?
 - Kaikille julkaisuarkistojen, tieteellisten julkaisujen, opinnäytteiden ja tutkimusdatan parissa työskenteleville
 - Koodaajille, ylläpitäjille, managereille, johtajille, palveluiden suunnittelijoille, kirjastonhoitajille ja informaatioille
 - Kaikille avoimista julkaisuista ja avoimesta tutkimusdatasta kiinnostuneille
 - Runsaasti asiaa myös mm. pitkäaikaissäilytyksestä, tunnisteista (mm. ORCID), altmetriikasta, kulttuuriperintöaineistoista, jne.

Konferenssin merkityksestä

- Alan johtava kansainvälinen tapahtuma Suomessa!
- Avointa julkaisemista, avointa tutkimusdataa, avointa lähdekoodia - näyteikkuna siihen missä maailmalla tällä hetkellä mennään
- Tilaisuus kansainväliseen verkostoitumiseen ja profiloitumiseen
- Uusia tuulia, uusia ideoita ja uutta innostusta!

Open Repositories 2014

Open Repositories Conference in Helsinki in June 2014

The 9th International Conference on Open Repositories will be held from 9 to 13 June, 2014 in Helsinki, Finland. It is the leading international conference in its field, and the attendance is likely to be around 400, with participants from all around the world.

The main theme of the conference is "Towards Repository Ecosystems" (see Call for Proposals for further details). The deadline for proposals ended on Monday, February 10, 2014, and there were 254 proposals submitted. You can follow the progress of your own proposals at the [submission system](#).

The full conference program is likely to be published in late April, 2014, but there is a [draft version of the schedule](#) available.

Conference registration has been open since February 14, 2014. There are also [sponsorship opportunities](#) available.

The conference will be hosted by University of Helsinki's twin libraries: Helsinki University Library and the National Library of Finland. You can contact the organizers by e-mail: [or-2014\[at\]helsinki.fi](mailto:or-2014[at]helsinki.fi).

You can see a listing of previous Open Repositories conferences [here](#).
