**ALKUSANAT**

Tämä julkaisu sisältää väestönmuutoksia esittäviä tauluja kunnittain vuodelta 1982. Julkaisusta on saatavissa vastaavat tiedot kuin sarjan edellisestä niteestä.

Tilaston ja julkaisun laatimista on johtanut yliaktuaari Irja Inkinen.

Helsingissä Tilastokeskuksessa toukokuussa 1984

**FÖRORD**

Föreliggande publikation innehåller tabeller över befolkningsrörelsen kommunvis år 1982. Publikationen innehåller motsvarande uppgifter som föregående år.

Statistikarbetet och redigering av publikationen har letts av överaktuarie Irja Inkinen.

Helsingfors Statistikcentralen i maj 1984

## JOHDANTO

Tilastokeskus saa väestönmuutosaineiston Väestörekisterikeskuksesta, joka pitää väestön keskusrekisteriä. Paikalliset väestörekisterin pitäjät lähettävät ilmoitukset väestönmuutostapahtumista viikottain Väestörekisterikeskukseen, jossa aineiston käsittelyn jälkeen tiedot siirretään konekieliseen muotoon. Tässä muodossa Tilastokeskus saa väestönmuutostiedot kuukausittain.

Väestörekisterikeskus ei kerää tietoja kuolleen syntyneistä. Tiedot näistä saadaan kuolleen syntyneen todistuksista, jotka lääkärit kirjoittavat. Todistus kulkee äidin väestörekisterin kautta lääninhallitukseen tai Helsingin, Turun tai Tampereen terveydenhoitovirastolle, jossa virkälääkäri lomakkeella olevat tiedot tarkistettuaan lähettää sen edelleen Tilastokeskukseen (asetus 824/70).

## Väestö

Julkaisussa on käytetty maassa asuvan väestön tilastoa. Tiedot ovat vuoden viimeisen päivän mukaisia.

Maassa asuvan väestön perustana 1970-luvulla vuoteen 1976 saakka oli väestölaskennassa 1970 saatu väestö. Siihen lisättiin paikallisten väestörekisterien ilmoittamat väestönmuutokset. Vuoden 1977 lopun väestöä laskettaessa siirryttiin uuteen menetelmään. Nyt maassa asuva väestö saadaan Väestörekisterikeskuksen henkikirjarekisteristä ajankohtana 31.12.

## Solmitut avioliitot

Solmituilla avioliitoilla tarkoitetaan Suomessa asuvien naisten avioliittoja ellei toisin mainita. Naimisiin menneiden miesten ja naisten määrä ei ole sama, koska niiden solmittujen avioliittojen luku, joissa osapuolina ovat Suomessa asuva nainen ja ulkomaiseen väestörekisteriin kuuluva mies, on suurempi kuin niiden, joissa osapuolina ovat Suomessa asuva mies ja ulkomaiseen väestörekisteriin kuuluva nainen.

## Avio- ja asumuserot

Avio- ja asumuserotilasto perustuu tuomioistuinten Väestörekisterikeskukselle lähettämiin ilmoituksiin myönnetystä avio- ja asumuseroista

## INLEDNING

Statistikcentralen erhåller materialet över befolkningsrörelsen från Befolkningsregistercentralen som upprätthåller centrala Befolkningsregistret. De lokala befolkningsregisterförarna sänder varje vecka anmälningar om inträffade förändringar i befolkningen till Befolkningsregistercentralen, där materialet bearbetas och överförs till maskinspråk. Statistikcentralen får uppgifterna om förändringar på magnetband månatligen.

Befolkningsregistercentralen insamlar inte uppgifter om dödfödda. Uppgifter om dessa erhålls på basen av de intyg angående dödfödda som utfärdas av läkare. Intyget översändes via moderns befolkningsregister till länsstyrelsen eller till hälsovårdsverket i Helsingfors, Åbo eller Tammerfors, där ämbetsläkaren, sedan han granskat uppgifterna på blanketten, vidarebefordrar det till Statistikcentralen (förordning 824/70).

## Befolkning

I publikationen har använts statistiken över den i riket bosatta befolkningen. Uppgifterna avser situationen den sista december.

Den i riket bosatta befolkningen har under 1970-talet ända till 1976 baserats på 1970 års folkräkning som uppdaterats på basen av uppgifter om befolkningsförändringar från de lokala befolkningsregistren. År 1977 övergick man till ett nytt system. Den i riket bosatta befolkningen erhålls nu från det mantalsskrivningsregister som förs av Befolkningsregistercentralen och som avser tidpunkten den 31.12.

## Ingångna äktenskap

Uppgifterna om ingångna äktenskap avser de äktenskap vilka ingåtts av i Finland bosatta kvinnor, om annat inte anges. Antalet män och kvinnor som ingått äktenskap är inte lika stort då äktenskapen mellan kvinna bosatt i Finland och man som antecknats i utländskt befolkningsregister är flera än äktenskapen mellan man som är bosatt i Finland och kvinna som är antecknad i utländskt befolkningsregister.

## Äktenskaps- och hemskillnader

Statistiken över äktenskaps- och hemskillnader grundar sig på de uppgifter som domstolarna sänder till Befolkningsregistercentralen om beviljade

sekä avioliiton peruuntumisista. Tilastossa ovat mukana myös ne tapaukset, joissa Suomessa vakituisesti asuville henkilöille on myönnetty ero jossakin ulkomaan tuomioistuimissa.

Vuodesta 1980 lähtien avio- ja asumuseroilla tarkoitetaan Suomessa asuvien naisten eroja.

### Syntyneet

Elävänä syntyneellä tarkoitetaan lasta, joka syntymän jälkeen hengitti tai osoitti muita elonmerkkejä. Kuolleet syntyneeksi katsotaan lapsi, joka on syntynyt kuolleet vähintään 28 viikkoa kestäneen raskauden jälkeen. Vain elävänä syntyneet otetaan huomioon väkilukutilastossa.

Lapset jaetaan sukuaseman mukaan aviolapsiin ja aviottomiin lapsiin. Lapsi, joka syntyy avioliiton aikana, on aviolapsi. Myös leski voi synnyttää aviolapsen, mikäli raskaus on alkanut avioliiton kestäessä. Avioliiton ulkopuolella syntynyt lapsi on avioton. Tilastossa katsotaan aviottomiksi myös ne tapaukset, joissa äiti on lapsen syntymän jälkeen mennyt lapsen isän kanssa naimisiin. Lain mukaan tällaiset lapset ovat aviolapsia sen jälkeen, kun heidän vanhempansa ovat solmineet keskenään avioliiton.

### Maassamuutto

Henkilön, joka vaihtaa asuntoa, on täytettävä viimeistään kolmen päivän kuluessa muuttoilmoitus ja jätettävä se sen rakennuksen omistajalle, johon hän muuttaa, taikka tämän edustajalle (Väestökirjalaki 141/1969 § 7 ja väestökirja-asetus 198/1970 § 15). Tehtyään lomakkeeseen omat merkintänsä rakennuksen omistajan tai hänen edustajansa on toimitettava muuttoilmoitus viikon kuluessa sille henkikirjoittajalle, jonka virkapirini muuttaneen henkilön uusi asuinpaikka kuuluu. Todettuaan muuttaneen asuin- ja kotipaikan henkikirjoittajan on lähetettävä muuttoilmoitus sen väestörekisterin pitäjälle, jonka kirjoissa muuttaja oli.

Kunnassamuuton katsotaan tapahtuvan, kun henkilö muuttaa saman kunnan sisällä kiinteistöstä toiseen.

### Maahan- ja maastamuutto

Maahan- ja maastamuutoissa erotetaan pohjoismainen ja Pohjoismaiden ulkopuolinen muuttoilike. Kun henkilö muuttaa toisesta pohjoismaasta

äktenskaps- och hemskillnader samt återgång av äktenskap. I statistiken har även de fall medtagits då en i Finland bosatt person beviljats skilsmässa av utländsk domstol.

Fr.o.m. 1980 har endast de äktenskaps- och hemskillnader medtagits, vilka beviljats i Finlands bosatta kvinnor.

### Födda

Med levande födda avses barn, som efter födseln har andats eller visat andra livstecken. Ett barn anses som dödfött, då det är dött vid födseln efter en graviditetstid på minst 28 veckor. Endast levande födda beaktas i statistiken över folkmängden.

I fråga om familjeställning skiljer man mellan barn inom och barn utom äktenskap. Barn som föds under äktenskapet har äktenskaplig börd. Även änka kan föda barn med äktenskaplig börd, om graviditeten börjat under den tid äktenskapet varat. I statistiken betraktas även de fall som utomäktenskapliga, där modern efter barnets födelse ingår äktenskap med barnets far. Enligt lag erhåller dessa barn äktenskaplig börd efter det föräldrarna ingått äktenskap med varandra.

### Inrikes omflyttning

Den som byter bostad skall senast tredje dagen efter flyttningen ifylla flyttningsanmälan och avgeva den till ägaren till den byggnad, dit han flyttat, eller till företrädare för denne (lag om befolkningsböcker 141/1969 § 7 och förordning om befolkningsböcker 198/1970 § 15). Ägaren till byggnaden eller hans företrädare skall, sedan han gjort sina egna anteckningar på blanketten, inom en vecka tillställa flyttningsanmälan den häradskrivare, till vars ämbetsdistrikt den inflyttade personens nya boningsort hör. När häradskrivaren konstaterat den inflyttade personens boningsplats och hemort, bör han insända flyttningsanmälan till den befolkningsregisterförare, i vars register den person som flyttar var införd.

Då en person flyttar från en fastighet till en annan inom samma kommun, betraktas detta som flyttning inom kommunen.

### In- och utvandring

I fråga om flyttningar till/från Finland skiljer man mellan nordiska och utomnordiska flyttningar. När en person flyttar från ett nordiskt

toiseen, hänelle on annettava lähtömaan paikallisesta väestörekisteristä pohjoismainen muuttokirja muuttotodistelmakkeineen tulomaan paikalliseen väestörekisteriin toimitettavaksi (660/1969, SopS 46). Tulomaan paikallinen väestörekisteriviranomainen palauttaa muuttotodisteen lähtörekisteriin. Muuttopäiväksi merkitään se päivä, jona henkilö palautettuun muuttokirjaan tehdyn merkinnän mukaan on otettu tulomaan paikalliseen väestörekisteriin.

#### Kunnittaiset väestönmuutostilastot ja niiden julkaiseminen

Ruotsinkielisen väestön kunnittaista väestönmuutostaulua (taulu 2) on tehty ja julkaistu vuodesta 1979 alkaen.

Kunnittaisia tietoja elävänä syntyneistä äidin iän mukaan on saatavissa vuodesta 1970 lähtien ja kuolleista iän mukaan vuodesta 1961 alkaen. Näiden taulujen julkaiseminen aloitettiin v. 1976. Ruotsinkielisten luvut lisättiin niihin v. 1978.

Kunnassamuutosta on tietoja saatavissa vuodesta 1975 lähtien. Kuntien välisestä muuttoliikkeestä muuttaneiden iän mukaan kunnittain on tietoja vuodesta 1969 lähtien vuosittain. Ne on julkaistu Tilastotiedotus-sarjassa, paitsi vuosina 1978-79, jolloin ne sisältyivät julkaisuun SVT VI A, Väestö, osa III.

Niistä vuosittain laadittavista kunnittaisista väestönmuutostauluista, joita ei julkaista, on luettelo tämän julkaisun lopussa olevassa liitteessä.

Kunnittaista väestönmuutostilastoa sisältävät tämän julkaisun ohella myös Tilastokeskuksen laatimat seuraavat teokset:

- Väestönmuutosten ennakkotietoja, Tilastotiedotus VÄ, Neljännesvuosi- ja vuositilasto
- Väestönmuutos- ja väestörakennekertomet, Tilastotiedotus VÄ, Vuositilasto
- Maassamuutto muuton suunnan mukaan kunnittain, Tilastotiedotus VÄ, Vuositilasto

Käsillä olevan julkaisun osassa I on tätä julkaisua seikkaperäisempiä tietoja koko maan ja läänien väestönmuutoksista. Siinä osassa selostetaan myös tarkemmin tietojen keruuta sekä käsitteitä ja määritelmiä.

land till ett annat bör han från utflyttningslandets lokala befolkningsregister få internordiskt flyttningsbetyg som han bör vidarebefordra till inflyttningslandets lokala befolkningsregister (660/1969, Fördr. serie 46). Det lokala befolkningsregistret i inflyttningslandet återsänder flyttningsbeviset till utflyttningsregistret. Såsom flyttningsdag antecknas den dag då personen, enligt den anteckning som finns i det returnerade flyttningsbeviset, har upptagits i inflyttningslandets lokala befolkningsregister.

#### Statistik över befolkningsrörelsen kommunvis och dess publicering

Kommunvisa tabeller över svenskspråkiga befolkningens befolkningsrörelse har uppgjorts och publicerats från och med år 1979.

Kommunvisa uppgifter om antalet levande födda efter moderns ålder finns att tillgå från och med år 1970. Från och med år 1961 finns kommunvisa uppgifter om antalet avlidna enligt ålder. Publiceringen av dessa tabeller börjades år 1976. År 1978 utökades de med siffror över den svenskspråkiga befolkningen.

Uppgifter om flyttningen inom kommunen finns tillgängliga fr.o.m. år 1975. Uppgifter om flyttningen mellan kommuner efter flyttarnas ålder kommunvis finns fr.o.m. 1969 årligen. Dessa har publicerats i serien Statistisk rapport utom åren 1978-79, varvid de ingick publikationen FOS, Befolkning, del III.

I bilagan i slutet av denna publikation finns en förteckning över de opublicerade kommunvisa tabellerna över befolkningsförändringar som uppgörs årligen.

Förutom denna publikation upptar följande publikationer kommunvisa uppgifter om befolkningsrörelsen:

- Förhandsuppgifter om befolkningsrörelsen, Statistisk rapport VÄ, Kvartals- och årsstatistik
- Befolkningsrörelse- och befolkningsstrukturskoefficienter, Statistisk rapport, VÄ, Årsstatistik
- Inrikes omflyttning efter flyttningsriktning kommunvis, Statistisk rapport VÄ, Årsstatistik

I del I av denna publikationsserie finns mera detaljerade uppgifter om befolkningsförändringarna gällande hela riket och länen än i föreliggande del av publikationsserie. I nämnda delen redogörs även närmare för insamlandet av uppgifterna samt för begreppen och definitionerna.

## SUMMARY

This publication contains tables of population and vital statistics of 1982 by municipality. The summary table of vital statistics (table 1) was published before the year 1976 in the Vital Statistics, Official Statistics of Finland (OSF) VI A. Table 5 was published in volume III in 1978 and 1979 and in the series of Statistical Reports in 1969-77. Data on migration within municipalities are available since 1975.

Data on live births by mother's age and by municipality are available since 1970 and data on deaths by age and by municipality since 1961. These data have published since 1976.

The Central Statistical Office (CSO) receives the data for vital statistics from the Population

Register Centre, which keeps the central register of population. The local population registrars report weekly the vital events to the Population Register Centre where the data are processed and transferred on magnetic tapes. From here the CSO receives the data on vital statistics monthly.

In the publication the resident population is used. The data are according to the data of December 31.

In the series of Statistical Reports VÄ (only in Finnish and Swedish) are published data on preliminary vital statistics quarterly and annually. In the same series are published data on internal migration by direction of migration and municipality.
